**Collections Management Check Up –  
Our Experts Assess Your Processes!**

Obtain a precise appraisal of your current situation, along with information on the software options suited to your company's individual needs. Our consultants use their comprehensive knowledge as the basis for identifying the correct best practice approach that has proven valid in numerous projects, whilst offering flexibility to tailor to your individual requirements.

### **Collections Management Check up**

- Receivables management organization
- Reminder and customer-complaint processes
- Systems used

**Specifically, our experts concentrate on  
collecting and analyzing information related  
to:**

- Dispute/clarification case processing
- Deduction/clarification case processing
- Dunning letters
- Phone collections
- Promise to pay
- Installment payment agreements
- Deferral agreements

## The results of the review will identify the areas of optimization where you can maximize automation and give you useful key information related to:

- Your current situation
- Analysis of strengths and weaknesses
- Identified opportunities for optimization
- Definition of project scope
- Demonstration of added value
- Project approach
- Project plan
- Project budget

We will work in co-ordination with you to analyze the challenges your company faces when it comes to collections management, and to identify potential areas of technical and procedural optimization.
